E-mail: info@dunkermotoren.com

www.dunkermotoren.com

Advanced brushed and brushless motion control solutions for a wide range of industrial automation applications, including factory equipment, office machines, medical devices and laboratory equipment. System solutions are based on brushless DC servo motors/brushed-type DC motors, integrated power and logic controllers, planetary and worm gearboxes, and encoders and brakes. Markets include industrial automation, medical devices and laboratory equipment, door automation, motive, basic automation, and sun protection.

DYNAMIC FLUID SOLUTIONS

100 East Erie Street
Kent, OH 44240 U.S.A.
Phone: +1 330-673-3452 • Fax: +1 330-677-3306
E-mail: dfs.information@ametek.com

www.ametekdfs.com

Vacuum/blower, permanent magnet DC, high torque, stepper and universal drive motors and brushless DC motor, pump, brushless and regenerative blowers, and controller-based solutions for numerous applications. Lamb and Prestolite brand motors are used in car washes, central vacuums commercial/household floorcare, lawn and garden, material handling and other similar applications. ROTRON, Windjammer, and Nautilair brands are used in transportation, fuel cells, medical devices, packaging equipment, pumps, compressors, business machines, printing equipment, chemical processing, aqua-culture, electric-powered vehicles, hydraulic pumps, electroplating, fume/smoke removal systems, and precise fluid motion applications.

HAYDON KERK PITTMAN

1500 Meriden Road
Waterbury, CT 06705 U.S.A.
Phone: +1 203-756-7441 • Fax: +1 203-756-8724
E-mail: info.haydonkerk@ametek.com

www.haydonkerkpittman.com

Standard and custom linear and rotary motion solutions. Haydon Kerk Pittman is a leading manufacturer of precision lead screw and anti-backlash nut assemblies, linear actuators, linear rails, brush and brushless DC motors, drives and gearboxes. HKP provides high-performance motion solutions for demanding applications in laboratory automation, medical instrumentation, semiconductor fabrication, military, aerospace and industrial applications.

E-mail: muirheadaerospace.sales@ametek.co.uk

Environmental control systems (ECS) and environmental life support systems (ELSS) for chemical, biological, radiological, and nuclear filtration (traditional and regenerative), air conditioning (space and spot cooling/heating), and specialist cooling (active, passive or both). AC and brushless DC and direct drive axial, centrifugal and mixed flow fans, engine cooling fans/systems, heaters, fan heaters, AC and brushless DC and servo motors, and generators. Analog RVDTs, synchros and variable reluctance resolvers, digital optical encoders, absolute and incremental permanent magnet generators, AC/DC brushed and brushless motors, torque and limited angle torque, variable reluctance, stepper and servo motors, gearboxes, and drive systems. Markets include business jets, turboprop and regional jets, commercial transport, military aircraft (fighter, bomber, transport, and UAV), ocean vessels, military vehicles (track and wheeled), helicopters, and rail (light rail and locomotive).

AMERON MASS SYSTEMS

4750 Littlejohn Street
Baldwin Park, CA 91706 U.S.A.
Phone: +1 626-337-4640 • Fax: +1 626-337-1641
E-mail: mass@ametek.com

www.ameronglobal.com

Pressurized gas systems, fire extinguishers, and pneumatic stored energy systems for gear blow down, door actuation, missile guidance and associated subcomponents. Markets include aircraft and weapons delivery systems.

FMH AEROSPACE

17072 Daimler Street
Irvine, CA, 92614 U.S.A.
Phone: +1 714-751-1000 • Fax: +1 714-545-6619
E-mail: fmh.sales@ametek.com

www.fmhaerospace.com

FMH Aerospace (FMH) is a leading designer and manufacturer of complex, highly-engineered components and assemblies for the commercial aerospace, defense, space and industrial markets. We produce a broad range of metal bellows, bellow joints, tubes, ducts and metal hoses, among other components, that are complex, tight tolerance and typically flight-critical. Our products are used to facilitate the transfer of fluids and gases at extreme temperatures and pressures and in demanding environments.

HUGHES-TREITLER

300 Endo Boulevard
Garden City, NY 11530 U.S.A.
Phone: +1 516-832-8811 • Fax: +1 516-832-8054

www.hughes-treitler.com

Heat exchangers, cold plates, condensers, evaporators and other heat-transfer products. Custom design and engineering services for aircraft, engine, and industrial heat exchangers and heat exchangers for the mobile, marine, avionic, space and missile markets.

OEM SERVICE, SPARES AND RETROFIT SUPPORT

50 Fordham Road
Wilmington, MA 01887 U.S.A.
Phone: +1 978-988-4100 • Fax: +1 978-988-4720

www.ameteksensors.com

Full range of support for service, repair and overhaul, spare parts and retrofits. Five world-class service centers (Mexico, California, Kansas, New York and Massachusetts) and two dedicated spare parts warehouses support aftermarket requirements. Service centers hold a range of certifications such as FAA, EASA, CAAC, and DGAC. Services include 24-hour AOG spares support, repairs, retrofit parts, service engineering, technical publication support, and warranty support that includes failure analysis and corrective action reporting.

AMETEK GLOBAL OPERATIONS

PACIFIC DESIGN TECHNOLOGIES (PDT)

6300 Lindmar Drive
Goleta, CA 93117
Phone: +1 805-961-9110
Fax: +805-961-9120

www.pd-tech.com

A world leader in the design and manufacture of sophisticated liquid cooling systems for commercial, defense and space applications. PDT provides both integrated and distributed systems to a myriad of advanced airborne platforms including the Boeing 787 Dreamliner and the Mars Curiosity Rover. PDT excels in all disciplines of thermal and fluid engineering to provide unique packaging and SWAP-C (size, weight and power-cost) benefits.

PDS

Engineering / Sales

343 Godshall Drive
Harleysville, PA 19438 U.S.A.
Phone: +1 316-522-0424

Binghamton, NY 13905 U.S.A.
Phone: +1 607-763-4700
E-mail: ametek-pds-sales@ametek.com

www.ametekpds.com

Manufacturer of brushed and brushless DC motors, pump motors, fans/blowers, rotary and linear actuators, starter generators, generator control units, power distribution units, primary and secondary power distribution, solid state power controllers and relays, remote control circuit breakers, arc fault protection, cockpit instruments, data acquisition units, engine interface units, bus protocol converters, utility controllers. Markets include commercial and regional transport, helicopter, business aircraft, military aircraft, ground vehicles and UAVs.

ROTRON MIL-AERO

55 Hasbrouck Lane
Woodstock, NY 12498 U.S.A.
Phone: +1 845-679-2401 • Fax: +1 845-679-1870
E-mail: milinquiry@ametek.com

www.rotron.com

AC and brushless DC motors, fans, blowers, heat exchangers, fault detection devices, electronic power conversion devices, and a variety of subassemblies and systems for military and aerospace. Experienced design teams research, develop, and deliver customized prototypes. Markets include business jets, turboprop and regional jets, commercial transport, military aircraft (fighter, bomber, transport, and UAV), ocean vessels, military vehicles (track and wheeled), helicopters, and rail (light rail and locomotive).

SENSORS & FLUID MANAGEMENT SYSTEMS

50 Fordham Road
Wilmington, MA 01887 U.S.A.
Phone: +1 978-988-4617 • Fax: +1 978-988-4944
E-mail: aerosales@ametek.com

www.ameteksensors.com

Aircraft and engine sensors for temperature, pressure, flow, fluid level, acceleration, proximity, speed and position. Capabilities include associated harnesses and supporting electronics. It also offers air data systems, fuel systems, lube oil systems, tanks and reservoirs incorporating industry-leading components and engineering. Markets include commercial transport, regional and business jet, military/UAV, helicopter, space, and land and marine.

TRAXSYS INPUT PRODUCTS

33 Oakfield Road, Penge
London, SE20 8EW, England, UK
Phone: +44 (0) 20 8659 9090 • Fax: +44 (0) 20 8659 9906
E-mail: RFQ.aag@ametek.com

www.traxsys.com

Cursor control devices for industrial and commercial applications, including the kiosk, medical, media and CCTV markets and harsh defense and marine environments. Desktop, panel and fascia mounted trackballs, joysticks, force joysticks and mouse pointers also are available.

MAINTENANCE, REPAIR, OVERHAUL (MRO)

www.ametekmro.com

24-hour worldwide aircraft on ground (AOG) and MRO provider with authorized global service centers. Capabilities include ducting, electromechanical, electrical, fire suppression systems/components, fuel systems, heat transfer, hydraulics, oxygen systems/components, pneumatics, starter/generators, and safety equipment for business jets, regional aircraft, commercial transport, helicopters, military aircraft/land vehicles and ocean vessels.

AEM

Taylor's End, Stansted Airport, Stansted
Essex, CM24 1RB, UK
Phone: +44 (0) 1279 680030 • Fax: +44 (0) 1279 680040
E-mail: aem@ametek.com

www.aem.co.uk

Electrical power generation, electronics, aviation windings, flying controls, flap carriages, fire extinguishers, landing gears, valves, pumps, machining, plating, safety equipment and oxygen systems. Holds EASA and FAA approvals and is an authorized repair station for Advanced Industries, Aeromedic, Astronics/DME Corporation, Eastern Aero Marine, KGS Electronics, Messier-Bugatti-Dowty, Safran Power, Tactair Fluid Controls, UTC Aerospace Systems Interiors, WINSLOW LifeRaft Company and Woodward HRT.

AEROMEDIC

De Havilland House
Airport Executive Park, President Way
Luton, LU2 9NL, UK

AMETEK GLOBAL OPERATIONS

CAMECA ATOM PROBE TECHNOLOGY CENTER *(continued)*

World leader in Secondary Ion Mass Spectrometry (SIMS), Electron Probe Microanalysis (EPMA), Low Energy electron-induced X-ray Emission Spectrometry (LEXES) and Atom Probe Tomography (APT), the CAMECA instruments serve a broad range of laboratory and process control applications in end markets that include semiconductor, nano-science, biology, environment, geology, nuclear and material sciences.

EDAX

91 McKee Drive
Mahwah, NJ 07430 U.S.A.
Phone: +1 201-529-4880 • Fax: +1 201-529-3156
E-mail: info.edax@ametek.com

www.edax.com

Innovative materials characterization systems encompassing energy dispersive spectroscopy (EDS), wavelength dispersive spectrometry (WDS), electron backscatter diffraction (EBSD) and X-ray fluorescence (XRF). EDAX designs, manufactures, distributes and services hardware and software solutions for a broad range of industries, educational institutions and research organizations.

FORZA SILICON

2947 Bradley Street, Suite 130
Pasadena, CA 91107 U.S.A.
Phone: +1 626-796-1182
E-mail: info.forza@ametek.com

www.forzasilicon.com

Forza Silicon is a global leader in fabless semiconductor design, specializing in analog/mixed-signal and highly sensitive, advanced CMOS image sensors for visible and infrared digital camera applications. Forza Silicon's Custom IC Design and Integrated Production Services model offers a complete end-to-end solution from circuit design to the delivery of highly reliable production parts.

GATAN

5794 W. Las Positas Blvd.
Pleasanton, CA 94588 U.S.A.
Phone: +1 925 463 0200
E-mail: info@gatan.com

www.gatan.com

Gatan, Inc. is the world's leading manufacturer of instrumentation and software used to enhance and extend the operation and performance of electron microscopes. Gatan products, which are fully compatible with nearly all electron microscope models, cover the entire range of the research process—from specimen preparation and manipulation to imaging and analysis. The Gatan brand name is recognized and respected throughout the worldwide scientific community and has been synonymous with high quality products and leading technology for more than 50 years.

NU INSTRUMENTS

Unit 74, Clywedog Road South,
Wrexham Industrial Estate,
Wrexham, LL13 9XS, UK
Phone: +44 (0) 1978 661304
E-mail: nu.info@ametek.com

www.nu-ins.com

NU INSTRUMENTS *(continued)*

Founded in 1995, Nu Instruments has established itself as a market leader in Inductively Coupled Plasma Mass Spectrometry (ICP-MS), Glow Discharge Mass Spectrometry (GD-MS), Isotope Ratio Mass Spectrometry (IRMS), Noble Gas and Thermal Ionisation Mass Spectrometry (TIMS). Nu's innovating mass spectrometers are installed worldwide in academia, governmental and industrial research labs, and serve a wide range of applications.

SPECTRO ANALYTICAL INSTRUMENTS GmbH

Boschstraße 10
47533 Kleve, Germany
Phone: +49 2821-892-0 • Fax: +49 2821-892-2202
E-mail: spectro.info@ametek.com

SPECTRO ANALYTICAL INSTRUMENTS

91 McKee Drive
Mahwah, NJ 07430 U.S.A.
Phone: +1 201-642-3000 • Fax: +1 201-642-3091
E-mail: spectro-usa.info@ametek.com

www.spectro.com

Broad array of atomic spectroscopic instrumentation for analyzing the elemental composition of solids, liquids and powders using optical emission, energy dispersive X-ray fluorescence (EDXRF), ICP, or ICP mass spectrometry measurement techniques for a variety of end markets, including metal production and processing, environmental testing, hydrocarbon processing, aerospace, food processing and pharmaceutical.

VISION RESEARCH

100 Dey Road
Wayne, NJ 07470 U.S.A.
Phone: +1 973-696-4500 or 800-737-6588 (U.S.A. only)
Fax: +1 973-696-0560
E-mail: phantom.marketing@ametek.com

www.phantomhighspeed.com

PHANTOM high-speed digital imaging cameras are used in machine vision, defense, automotive, engineering, broadcast and media production, medical research, industrial manufacturing and packaging, and science applications.

ORTEC

801 South Illinois Avenue
Oak Ridge, TN 37831-0895 U.S.A.
Phone: +1 865-482-4411 • Fax: +1 865-483-0396
E-mail: ortec.info@ametek.com

www.ortec-online.com

ORTEC is an industry leader in the design and manufacture of ionizing radiation detectors, nuclear instrumentation, analysis software and associated systems. Key industry segments include nuclear power, nuclear security and materials safeguard, academia and research, environmental management and health physics.

PRINCETON APPLIED RESEARCH

801 South Illinois Avenue
Oak Ridge, TN 37831-0895 U.S.A.
Phone: +1 865-425-1289 • Fax: +1 865-481-2410
E-mail: si.info@ametek.com

www.ameteksi.com

AMETEK GLOBAL OPERATIONS

PRINCETON APPLIED RESEARCH *(continued)*

High-precision electrochemical instrumentation, electrochemical software, voltammetry instruments, ancillary equipment and accessories. Markets include corrosion, energy storage, surface imaging, nanotechnology and research electrochemistry.

SIGNAL RECOVERY

801 South Illinois Avenue
Oak Ridge, TN 37831-0895 U.S.A.
Phone: +1 865-483-2118 • Fax: +1 865-481-2410
E-mail: si.info@ametek.com

www.ameteksi.com

Specialized instruments for measuring low-level electrical signals or signals accompanied by unwanted noise or interference. Products include lock-in amplifiers, signal averagers, optical choppers, preamplifiers, counter/timers, and multiplexers. Markets include optics, magnetics, mechanical testing and scanned probe, electronics, time-of-flight mass spectrometry and OEM solutions.

SOLARTRON ANALYTICAL

5 Asheville Way
Wokingham, Berkshire, RG41 2PL, UK
Phone: +44 (0) 1252 556800 • Fax: +44 (0) 1252 556899
E-mail: si.info@ametek.com

www.ameteksi.com

Instruments for the characterization of materials and cells using precision electrical measurement techniques, including electrochemical impedance spectroscopy (EIS). Products include the ModuLab instruments for electrochemical and other research, industry-standard frequency response analyzers, potentiostats, battery test equipment and supporting software. Markets include analytical/fundamental research, biomaterials, ceramics, corrosion/coatings dielectrics, displays, fuel cells, batteries and supercapacitors, fast ion conductors/solid electrolytes, semiconductors, piezoelectrics/ferroelectrics/MEMs, nanomaterial, polymers and solar cells/photovoltaics.

SUNPOWER

2005 East State Street, Suite 104
Athens, OH 45701-2627 U.S.A.
Phone: +1 740-594-2221 • Fax: +1 740-593-7531
E-mail: sunpower.info@ametek.com

www.sunpowerinc.com

World leader in free-piston Stirling technology. Engineering services include prototype design, development and fabrication of free-piston Stirling engines. Products include the CryoTel line and the NASA advanced Stirling convertor. Markets include aerospace, critical remote power, solar electric power and military portable power.

MEASUREMENT, COMMUNICATIONS & TESTING

ATLAS MATERIAL TESTING TECHNOLOGY

1500 Bishop Court
Mount Prospect, IL 60056 U.S.A.
Phone: +1 773-327-4520 • Fax: +1 773-327-5787
E-mail: atlas.info@ametek.com

www.atlas-mts.com

ATLAS MATERIAL TESTING TECHNOLOGY *(continued)*

Atlas is a leader in materials testing, offering a complete line of weathering testing instrumentation, laboratory and outdoor testing services. Atlas products are designed and manufactured to conform to international and industry standard test methods, including ISO, ASTM, DIN, JIS and numerous others. Markets include automotive, paint and coatings, plastics and additives, textiles, pharmaceutical and consumer products, architecture, aerospace, photovoltaics and packaging.

RAULAND

1802 West Central Road
Mount Prospect, IL 60056 U.S.A.
Phone: +1 847-590-7100 or 800-752-7725 (U.S.A. only)
E-mail: rauland.customerservice@ametek.com

www.rauland.com

Rauland is a market leader in the design and delivery of critical communications, workflow, and life-safety solutions for hospitals and schools worldwide. Comprehensive solutions include RESPONDER hospital communications and nurse call systems for healthcare, and TELECENTER communications systems for education.

TELULAR

200 S Wacker Dr. #1800
Chicago, IL 60606 U.S.A.
Phone: +1 312-548-8644

www.telular.com

Telular is a technology leader in IoT solutions for commercial telematics, and security and home automation. For over thirty years we have been combining wireless technologies, purpose-built devices, and SaaS commercial offerings disrupting the IoT market.

TELGUARD

3225 Cumberland Boulevard SE, Suite 300
Atlanta, GA 30339 U.S.A.
Phone: +1 800-229-2326
E-mail: telguardsales@ametek.com

www.telguard.com

Telguard, an AMETEK Telular brand, provides industry-leading security and home automation technologies to independent security dealers, helping them guard their reputation, their customers and their bottom line.

SKYBITZ

200 S Wacker Dr. #1800
Chicago, IL 60606 U.S.A.
Phone: +1 703-478-3340
E-mail: customercare.skybitz@ametek.com

www.skybitz.com

SkyBitz, an AMETEK Telular brand, provides America's backbone transportation and logistics industries real-time asset tracking and data analytics from sensors and remote monitoring solutions, enabling its customers to make the best business decisions to impact their bottom line.

AMETEK GLOBAL OPERATIONS

SENSORS, TEST & CALIBRATION

CHATILLON FORCE MEASUREMENT PRODUCTS

8600 Somerset Drive
Largo, FL 33773 U.S.A.
Phone: +1 727-538-6000 or 800-527-9999 (U.S.A. only)
Fax: +1 727-539-6882
E-mail: test.sales@ametek.com

www.ametektest.com

CHATILLON force measurement systems include handheld force, torque, and ergonomic gauges plus mechanical, motorized, hydraulic and digital force testing systems. Its products are used for tensile, compression, shear, flexural, coefficient of friction (COF) and spring testing and analysis. Markets include automotive, packaging, aviation, constructive, pharmaceutical, cosmetics, plastics, electronics, rubber, food, spring, medical device, textile, metals and wood/timber testing.

CHATILLON WEIGHING SCALES

8600 Somerset Drive
Largo, FL 33773 U.S.A.
Phone: +1 727-538-6000 or 800-527-9999 (U.S.A. only)
Fax: +1 727-539-6882
E-mail: test.sales@ametek.com

www.chatillon-scales.com

CHATILLON mechanical weighing scales including Class III legal for trade hanging scales, bulk weighing scales, bench beam scales, autopsy scales, platform scales, fish and game scales, linear scales, mining scales, and crane scales up to 20,000 lbs. Markets include legal for trade, autopsy, fish and game, crane, floor, linear, food, agricultural, warehouse, and bench scales as well as dolorimeters.

CRYSTAL ENGINEERING

708 Fiero Lane, Suite 9
San Luis Obispo, CA 93401 U.S.A.
Phone: +1 805-595-5477 • Fax: +1 805-595-5466
E-mail: crystal@ametek.com

www.ametekcalibration.com

Crystal Engineering develops products used to measure pressure, to calibrate other pressure measuring equipment, and to diagnose the performance of equipment that depends on pressures within it or applied to it. Its products have a very accurate "percent of reading" specification, and are not derated for temperature effects. Crystal Engineering's calibration lab is A2LA accredited and recognized by ILAC, and its products are DNV certified for test and calibration equipment for ships, high-speed and light craft and DNV's offshore standards. Markets include marine, pharmaceutical, food, power and energy, oil and gas, and sustainable energy industries.

DAVENPORT POLYMER TESTING PRODUCTS

Steyning Way, Bognor Regis
West Sussex PO22 9ST, UK
Phone: +44 (0) 1243 833 370 • Fax: +44 (0) 1243 833 401
E-mail: test.sales@ametek.com

DAVENPORT POLYMER TESTING PRODUCTS – U.S.A.

8600 Somerset Drive
Largo, FL 33773 U.S.A.
Phone: +1 727-538-6000 or 800-527-9999 (U.S.A. only)
Fax: +1 727-539-6882
E-mail: test.sales@ametek.com

www.ametektest.com

DAVENPORT POLYMER TESTING PRODUCTS *(continued)*

DAVENPORT polymer testing instruments are used for determining melt flow index (MFI), melt flow rate (MFR), melt volume rate (MVR), intrinsic viscosity (IV) measurement of PET resins and density measurement of solid materials.

DREXELBROOK

205 Keith Valley Road
Horsham, PA 19044 U.S.A.
Phone: +1 215-674-1234 • Fax: +1 215-674-2731
E-mail: drexelbrook.info@ametek.com

www.drexelbrook.com

DREXELBROOK is a leader in level measurement solutions, offering eight different technologies that include radar, ultrasonic, RF admittance, TDR, magnetostrictive, hydrostatic, and vibration technology. Markets include food processing, oil production, oil refining, organic chemicals and plastics, and pharmaceutical, beverage, power and cogeneration plants and water and wastewater treatment industries.

FACTORY AUTOMATION

1080 North Crooks Road
Clawson, MI 48017 U.S.A.
Phone: +1 248-435-0700 or 800-635-0289 (U.S.A. only)
Fax: +1 248-435-8120
E-mail: apt.sales@ametek.com

www.ametekfactoryautomation.com

GEMCO linear displacement transducers, DeviceNet sensors and Allen-Bradley PLC bus card products, camboxes, CATRAC cable and hose carriers, programmable limit switches, liquid level controls for water, wastewater applications, conductance probes, float sensors, level control packages, and industrial brakes. Markets include agriculture, automation, automotive, hydropower and movable structures, lumber, metal forming, packaging, plastics and steel mill industries.

HUNTER SPRING PRODUCTS

205 Keith Valley Road
Horsham, PA 19044 U.S.A.
Phone: +1 215-355-6900 • Fax: +1 215-354-1801
E-mail: hunter.sales@ametek.com

www.hunterspringandreel.com

Electric power reels, cable management reels, static grounding reels, cable reels and data reels, including CAT 5e and CAT 6 ethernet and S-video cable reels. Complete line of NEG'ATOR power springs and spring motors for driving, tensioning and counterbalancing applications. Markets served include aerospace/defense, medical equipment/healthcare, electronic/audio-visual, automotive/transportation, consumer and industrial products.

JOFRA CALIBRATION

Manufacturing and Sales of Calibration Instruments

Gydevang 32-34
3450 Allerød, Denmark
Phone: +45 4816-8000 • Fax: +45 4816-8080
E-mail: jofra@ametek.com

www.ametekcalibration.com

JOFRA calibration instruments for temperature, pressure and process signals. Markets include marine, pharmaceutical, food, power and energy, oil and gas, and sustainable energy industries.

AMETEK GLOBAL OPERATIONS

LLOYD INSTRUMENTS

Steyning Way, Bognor Regis
West Sussex PO22 9ST, UK
Phone: +44 (0) 1243 833 370 • Fax: +44 (0) 1243 833 401
E-mail: test.sales@ametek.com

LLOYD INSTRUMENTS – U.S.A.

8600 Somerset Drive
Largo, FL 33773 U.S.A.
Phone: +1 727-538-6000 or 800-527-9999 (U.S.A. only)
Fax: +1 727-539-6882
E-mail: test.sales@ametek.com

www.ametektest.com

Lloyd Instruments offers a full range of single- and twin-column material testers with testing capacities to 100kN (22,000 lbf); NEXYGEN software products for advanced automated testing and materials analysis; and a variety of ancillary testing equipment, including specialized testing fixtures, extensometers, thermal chambers and load cell sensors. Markets include testing of automotive components, construction/building materials, cosmetics, electronics/micro-electronics, food/texture, medical devices, metals, packaging, paper/paperboard, pharmaceuticals, plastics, rubber, springs, textiles, and wood/timber.

M&G CALIBRATION

8600 Somerset Drive
Largo, FL 33773 U.S.A.
Phone: +1 727-538-6000 or 800-527-9999 (U.S.A. only)
Fax: +1 727-539-6882
E-mail: cal.info@ametek.com

www.ametekcalibration.com

Product line includes M&G primary standards, pneumatic deadweight testers, hydraulic deadweight testers, digital pressure calibrators, dial gauge comparators, digital handheld test systems, and pneumatic and hydraulic pumps, as well as JOFRA temperature, pressure and process calibrators. Markets include marine, pharmaceutical, food, power and energy, oil and gas, and sustainable energy industries.

NEWAGE TESTING INSTRUMENTS

205 Keith Valley Road
Horsham, PA 19044 U.S.A.
Phone: +1 215-355-6900 • Fax: +1 215-354-1803
E-mail: newage.info@ametek.com

www.hardnesstesters.com

Broad range of hardness testers with unique features and a wide range of capabilities. Custom solutions for in-process hardness testing of oil pipe to plate metal. Fully automated systems for case depth hardness analysis and a complete array of services, including installation, calibration and repair. Markets include aerospace, bearings, biomedical, commercial testing and analytical laboratories, education, energy, heat treatment, munitions, medical devices, metals and metallurgical, military, petrochemicals and chemicals, plastics and rubber.

PMT PRODUCTS

205 Keith Valley Road
Horsham, PA 19044 U.S.A.
Phone: +1 215-674-1234 • Fax: +1 215-672-8981
E-mail: mctpmt.sales@ametek.com

www.ametekpmt.com

PMT PRODUCTS *(continued)*

Precision electronic pressure transducers and transmitters with a variety of pressure transducer and transmitter types and sizes used in test and measurement, industrial, medical, agricultural, military, and automotive applications. PMT Products also offers pneumatic controllers and a complete line of level measurement transmitters and controllers. Markets include oil, gas, petrochemical, ultra-high purity gases, welding, compressed air, pumps, compressors and more.

U.S. GAUGE

205 Keith Valley Road
Horsham, PA 19044 U.S.A.
Phone: +1 215-674-1234 • Fax: +1 215-323-9450
E-mail: USG.sales@ametek.com

www.ametekusg.com

High-quality pressure and temperature measurement products, including Bourdon tube and diaphragm capsule pressure gauges ranging in size from 1-1/2 inches to 6 inches with brass, stainless steel, alloy steel or Monel internals. Complete line of Mansfield & Green (M&G) diaphragm seals and a full range of bimetallic thermometers. Markets include oil, gas, petrochemical, welding, compressed air, pumps, compressors and sprinkler systems.

POWER SYSTEMS & INSTRUMENTS

ELECTRONIC SYSTEMS PROTECTION – ESP SurgeX

8001 Knightdale Boulevard
Knightdale, NC 27545 U.S.A.
Phone: +1 919-269-6968 • Fax: +1 919-269-0454

www.ametekesp.com

ESP SurgeX is a recognized leader in advanced power protection, intelligent diagnostics, and remote monitoring solutions. It offers a complete power protection portfolio for the business equipment, imaging, audio visual, and gaming industries.

HDR POWER SYSTEMS

530 Lakeview Plaza Boulevard, Suite C
Worthington, OH 43085 U.S.A.
Phone: +1 614-308-5500 or
888-797-2685 (888-PWR-CNTL) (U.S.A. only)
E-mail: hdr.sales@ametek.com

www.hdrpower.com

Silicon-controlled rectifier (SCR) power controllers, power controller systems, and custom AC and DC power supplies for industrial heating and glass manufacturing, as well as other specialized applications.

POWERVER

1450 Lakeside Drive
Waukegan, IL 60085 U.S.A.
Phone: +1 847-596-7000 • Fax: +1 847-596-7001
E-mail: cservice.powervar@ametek.com

www.powervar.com

Transformer-based power conditioners and uninterruptible power supplies (UPS). Powervar provides single-phase and three-phase product solutions to the medical, point of sale, industrial, financial, imaging, telecommunications, and mission critical data center markets. Powervar's Security One UPM family was among the first uninterruptible power systems (UPS) available with IEC60601 listings for medical applications.

AMETEK GLOBAL OPERATIONS

PROGRAMMABLE POWER

9250 Brown Deer Road
San Diego, CA 92121 U.S.A.
Phone: +1 858-450-0085 • Fax: +1 858-458-0267
E-mail: sales.ppd@ametek.com

www.powerandtest.com

Global leader in the design and manufacture of precision, programmable power supply brands Sorensen, California Instruments, and Elgar for R&D, test and measurement, process control, power bus simulation and power conditioning applications across diverse industrial segments. Programmable Power's VTI Instruments brand instrumentation provides high accuracy measurement and full featured software for the most demanding NVH application requirements, data acquisition and test and measurement solutions.

PRESTOLITE POWER

66 Industry Court – Suite F
Troy, OH 45373 U.S.A.
Phone: +1 937-440-0800 or 800-367-2002 (U.S.A. only)
Fax: +1 937-440-0893 or 800-654-4024 (U.S.A. only)

www.prestolitepower.com

Battery charging solutions for the motive power industry. Product line offers ferroresonant technology chargers, silicon controlled rectifier (SCR) chargers for opportunity charging or charging hot or cold batteries and high-frequency IGBT chargers for energy management and efficiency.

SOLIDSTATE CONTROLS

875 Dearborn Drive
Columbus, OH 43085-1596 U.S.A.
Phone: +1 614-846-7500 • Fax: +1 614-885-3990

www.solidstatecontrolsinc.com

Highly customized inverters and uninterruptible power supply (UPS) systems and battery management systems used in oil and gas production and refining, chemical and petrochemical processing, steel manufacturing, and power generation (including fossil fuel and nuclear power utilities).

SWITCH

255 North Union Street
Rochester, NY 14605 U.S.A.
Phone: +1 585-263-7700 or 800-843-5169 (U.S.A. only)
Fax: +1 585-454-7805

www.ametekswitch.com

High-quality DC contactors and solenoids; DC contactors and specific solenoid products that are UL approved. Markets include agricultural, ground power, heavy trucks, forklifts, electric vehicles, military, motive, pump, stationary power, telecommunication systems, winch, welding, uninterruptible power supplies, ground power generation, among others.

COMPLIANCE TEST SOLUTIONS

EM TEST

Sternenhofstraße 15
CH-4153 Reinach, Switzerland
Phone: +41 61 717 91 91 • Fax: +41 61 717 91 99

www.emtest.com

EM TEST *(continued)*

Conducted electromagnetic compatibility (EMC) test equipment includes electrical fast transient generators, electrostatic discharge simulators, surge generators, waveform simulators and multifunctional generators. Markets include automotive, telecommunication, medical and component testing.

IFI – Instruments For Industry

903 South Second Street
Ronkonkoma, NY 11779 U.S.A.
Phone: +1 631-467-8400 • Fax: +1 631-467-8558
E-mail: sales@ifi.com

www.ifi.com

Design and manufacturing of RF amplifiers, solid-state amplifiers and traveling wave tube (TWT) amplifiers (pulsed, CW and combination amps) for commercial and military applications. IFI continually advances the development of its low power, medium power, high power (HPA), broadband, solid-state and TWT amplifier products to offer the broadest range of RF microwave amplifiers.

MILMEGA

Park Road
Ryde
Isle of Wight, PO33 2BE, UK
Phone: +44 1983 618000 • Fax: +44 1983 616864
E-mail: milmega.purchasing@ametek.com

www.milmega.co.uk

Design, development and manufacturing of solid-state, high-power broadband amplifiers for commercial and government applications. These broadband amplifier products serve the EMC, communications, science and defense markets and range in frequency from 80 MHz to 6 GHz, with power levels from 10 Watts to above 1 kW.

TESEQ

Sternenhofstraße 15
CH-4153 Reinach, Switzerland
Phone: +41 32 681 40 48 • Fax +41 32 681 40 48
E-mail: chinfo.teseq@ametek.com

www.teseq.com

Electromagnetic compatibility (EMC) test systems for emissions and immunity testing; conducted and radiated EMC test equipment with a comprehensive product offering and extensive geographic coverage; MILMEGA and IFI power amplifiers.

AMETEK CTS Germany GmbH

Sales office for Compliance Test Solutions in Europe (EM TEST, MILMEGA, IFI, TESEQ)

www.baseline-mocon.com

Multipoint toxic gas analyzers and custom gas chromatograph (GC) applications, PetroAlert analyzers for specific hydrocarbon detection during oil and gas exploration, BevAlert analyzers for detecting impurities in beverage-grade carbon dioxide, and piD-TECH photoionization (PID) volatile organic compound (VOC) micro-sensors. Markets include low-level environmental monitoring, toxic gas detection, surface logging, chemical, industrial and specialty gas analysis.

SPECTRO SCIENTIFIC

One Executive Drive, Suite 101
Chelmsford, MA 01824-2563 U.S.A.
Phone: +1 978-486-0123 • Fax: +1 978-486-0030
E-mail: sales.spectrosci@ametek.com

www.spectrosci.com

Spectro Scientific is a global supplier of oil, fuel, and fluid analysis instruments to industry, military and laboratories. The company develops a broad array of fluid analysis instruments for evaluating machine and lubricant condition in the field, in the lab and in highly mobile, handheld applications. The instruments provide critical data about machinery condition and can provide an early warning of equipment failure. Our core businesses are oil and grease analysis, fuel analysis and oil in water analysis for regulatory compliance.

SURFACE VISION

1288 San Luis Obispo Avenue
Hayward, CA, 94544 U.S.A.
Phone: +1 510-431-6767 • Fax: +1 510-431-6730
E-mail: surfacevision.info@ametek.com

www.ameteksurfacevision.com

Automated online surface inspection solutions for the consistent monitoring and inspection of webs and surfaces, and for process surveillance applications. The SmartView® and SmartAdvisor® product lines deliver robust, flexible solutions to continuous production processes across a number of industries worldwide including aluminum, copper, nonwovens, paper, plastics and steel. Its systems are vital to increasing efficiency, streamlining operations, improving product quality and reducing costs and waste in industrial processes.

ENERGY & PROCESS INSTRUMENTATION

CHANDLER ENGINEERING

2001 North Indianwood Avenue
Broken Arrow, OK 74012-1163 U.S.A.
Phone: +1 918-250-7200 • Fax: +1 918-459-0165
E-mail: chandler.sales@ametek.com

www.chandlereng.com

Chandler Engineering manufactures standard and customized testing instrumentation for the oil well cementing, well completion, fuel analysis, flow characterization and gel testing markets. Specializing in; high-pressure / high-temperature cement consistometers, ultrasonic cement analyzers, fluid property instruments for drilling, fracturing, stimulation and reservoir fluids. Also offering Quizix pulse-free, high-precision metering pumps used for determining the flow of multiphase fluids.

AMETEK GLOBAL OPERATIONS

GRABNER INSTRUMENTS

Dr. Otto Neurath Gasse 1
A-1220 Wien, Austria
Phone: +43 1 282 16 27-0 • Fax: +43 1 282 16 27-300
E-mail: grabner.sales@ametek.com

www.grabner-instruments.com

Fully autoß and portable laboratory and online petroleum testing instruments for vapor pressure, flash point, fuel analysis, biofuel content, distillation and mobile fuel analysis labs. Markets include refineries, pipelines/terminals, inspection, process, biofuel, food/flavor/fragrance, pharmaceutical, environmental, paint/coatings/plastics/, asphalt and automotive industries.

PETROLAB COMPANY

2001 North Indianwood Avenue
Broken Arrow, OK 74012 U.S.A.
Phone: +1 918-459-7170 • Fax: +1 918-459-7178
E-mail: petrolab.sales@ametek.com

www.petrolab.com

North American sales and support services for Petrolab Company and Grabner Instruments, including laboratory and online testing instrumentation for refineries, pipelines/terminals, inspection, process, biofuel, food/flavor/fragrance, government, pharmaceutical, environmental, paint/coatings/plastics/, asphalt and automotive industries.

www.ametekpi.com

Process analyzers and instrumentation designed to help our customers reach higher levels of productivity and quality. We achieve this by finding ways to overcome the limitations of the current methods of process monitoring, control, and quality assurance. Our analyzers are industry recognized for reliability, accuracy, and the support of our global network. Markets include refining, natural gas processing, petrochemical, pharmaceutical, semiconductor, glass manufacturing, cement and lime, and pulp and paper production.

SOLARTRON ISA

Hackworth Industrial Park, Shildon,
County Durham, DL4 1LH, UK
Phone: +44 (0) 1388 773065 • Fax: +44 (0) 1388 774888
E-mail: sales.solartronisa@ametek.com

www.solartronisa.com

Flow meters to measure multiphase wet gas or single phase processes in oil, gas and petrochemical facilities. Installed subsea, offshore and in downstream processing plants our meters are designed to improve production revenues by monitoring and allocation hydrocarbon resources or controlling production processes.

THERMAL PROCESS MANAGEMENT

BARBEN ANALYTICAL

5200 Convair Drive
Carson City, NV 89706 U.S.A.
Phone: +1 775-883-2500 • Fax: +1 775-883-6388
E-mail: sales.barben@ametek.com

www.barbenanalytical.com

Barben Analytical specializes in pH and conductivity sensors for liquid analysis, as well as optical oxygen analyzers for industrial applications; pH sensors with patented Axial Ion Path reference technology for strong chemical and high temperature and pressure applications. OXYvisor luminescent oxygen analyzers for gas and liquid phase measurements with high contaminants. Markets include oil and gas, pulp and paper, chemical and other manufacturing environments.

CARDINAL UHP

1910 Crystal Industrial Court
St. Louis, MO 63114 U.S.A.
Phone: +1 314-473-2121 • Fax: +1 314-473-2120
E-mail: sales.cardinal@ametek.com

www.cardinaluhp.com

Electropolished, ultra-high-purity orbital weld fittings and tubing in both stick and long continuous coils used for critically pure production systems in semiconductor, biotechnology, pharmaceutical, medical, food processing, telecommunication industries, and research and testing laboratories.

CONTROLS SOUTHEAST

12201 Nations Ford Road
Pineville, NC 28134 U.S.A.
Phone: +1 704-644-5000
E-mail: sales.csi@ametek.com

www.csiheat.com

CSI is a global leader in steam heat tracing and steam jacketing technology. CSI offers a wide range of solutions for heated piping systems, pipe tracing, vessel jacketing, and tank heating; valve jacketing and pump jacketing, jacketed piping, jacketed valves; flexible metal hoses, heat transfer compounds, process piping, pressure vessels, precision manifolds, and next generation degassing technology for refineries and gas processing facilities.

O'BRIEN

1900 Crystal Industrial Court
St. Louis, MO 63114 U.S.A.
Phone: +1 314-236-2020 • Fax: +1 314-236-2080
E-mail: sales.obrien@ametek.com

www.obcorp.com

O'Brien products include TRACEPAK and STACKPAK temperature controlled tubing bundles; TrueTube electropolished and coated analyzer sample transport tubing; MJ polymer-coated corrosion protection and STRUT-RAK tray alternative support for small bore tubing systems; VIPAK, HEATPAK, and FLEXPAC heated instrument enclosures, and SADDLEPAK instrument mounting systems. Markets include the offshore, oil sands, refining and chemical and power industries.

AMETEK GLOBAL OPERATIONS

UNIVERSAL ANALYZERS

5200 Convair Drive
Carson City, NV 89706 U.S.A.
Phone: +1 775-883-2500 • Fax: +1 775-883-6388
E-mail: sales.universal@ametek.com

www.universalanalyzers.com

Products include gas sample extraction, transport, and conditioning systems for continuous emissions monitoring (CEM) and process measurement and complete sample transport solutions, including extractive and dilution probes, heated sample lines, sample gas chillers and the balance of conditioning components, for use in hazardous and general purpose locations. Markets include oil and gas, petrochemical, chemical, pollution control and gas sampling.

TIRES AND AUTOMOTIVE TESTING

Uniformity and dynamic balancer testing systems for tire and tire and wheel assemblies; tire geometry inspection systems; tire X-ray machines with automatic defect recognition; driveshaft and crankshaft balancers for automotive assemblies, and custom driveshafts. Markets include all final finish test and measurement solutions for tire manufacturers, tire and wheel assembly solutions and drivetrain balancing solutions for automotive manufacturers.

SPECIALTY METAL PRODUCTS

HEADQUARTERS

3900 Germantown Pike
Collegeville, PA 19426 U.S.A.
Phone: +1 610-489-5200 • Fax: +1 610-489-5252
E-mail: smp.connect@ametek.com

www.ametekmetals.com

AMETEK Specialty Metal Products (SMP) consists of six manufacturing business units in the United Kingdom and the United States of America: Reading Alloys, AMETEK SMP Eighty Four, Fine Tubes, Superior Tube, Hamilton Precision Metals and AMETEK SMP Wallingford. Collectively, the businesses represent a leading force in the manufacture of specialty metal powder, tube and strip products for critical applications across a range of industries.

AMETEK SMP EIGHTY FOUR

1085 Route 519
Eighty Four, PA 15330 U.S.A.
Phone: +1 724-225-8400 • Fax: +1 724-225-6622
E-mail: ef.sales@ametek.com

www.powderclad.com
www.ametekmetals.com

AMETEK SMP Eighty Four is a leader in the production of water atomized powders and clad metal plate. Structural steels include 300 and 400 series and specialty alloys for lock hardware, appliance parts and exhaust system components; sintered metal filter for the polyester spinning market; Metal Injection Molding (MIM) powders down to 10 microns; stainless steel flake for coating applications; clad plate in stainless clad aluminium and other high performance alloys from 3/16" to 1" thick for industrial cooktops. Markets include automotive, oil and gas, energy, agriculture and industrial.

FINE TUBES

Plymbridge Road
Plymouth PL6 7LG, UK
Phone: +44 (0) 1752 735851 • Fax: +44 (0) 1752 733301
E-mail: sales.finetubes@ametek.com

www.finetubes.com
www.ametekmetals.com

Leading manufacturer of precision seamless, welded and redrawn tubes in a wide range of high performance stainless steel, titanium and nickel alloys. Its tubes are used in critical-tolerance applications that operate in demanding environments across a range of niche markets including aerospace, oil and gas, medical, energy and high purity. Size range: 1 mm (0.040 inch) OD up to 45 mm (1 5/8 inch) OD. Wall thicknesses from 0.05 mm (0.002 inch) up to 3.8 mm (0.150 in).

HAMILTON PRECISION METALS

1780 Rohrerstown Road
Lancaster, PA 17601 U.S.A.
Phone: +1 717-569-7061 • Fax: +1 717-569-7642
E-mail: hpm.sales@ametek.com

www.hpmetals.com
www.ametekmetals.com

Custom re-roller of precision metal strip and foil, including titanium, nickel and nickel-based alloys, stainless steel and super alloys with applications in medical, aerospace, electronics and process control. Products include CP titanium for pacemakers and other implantable medical devices; thin gauge strip and foils for diaphragm products; and resistance alloy foils for strain gages. Markets include medical devices, aerospace technology, computers, automotive and electronics.

READING ALLOYS

220 Old West Penn Avenue
Robeson, PA 19551 U.S.A.
Phone: +1 610-693-5822 or 800-234-9870 (U.S.A. only)
Fax: +1 610-693-5542
E-mail: rai.sales@ametek.com

www.readingalloys.com

AMETEK GLOBAL OPERATIONS

READING ALLOYS *(continued)*

Reading Alloys is leader in the development and production of master alloys, titanium powders and gas atomized powders. Markets include aerospace, medical implants, defense, electronics and industrial. Master alloys for titanium and superalloy melting including vanadium, molybdenum, niobium, chrome and multi-component. High purity titanium powders: CP Ti, Ti 6Al4V, magnesium and sodium reduced Ti sponge produced through hydride-dehydride (HDH). Gas atomized powders for brazing and thermal spray applications.

SUPERIOR TUBE

3900 Germantown Pike
Collegeville, PA 19426 U.S.A.
Phone: +1 610-489-5200 • Fax: +1 610-489-5252
E-mail: sales.superiortube@ametek.com

www.superiortube.com
www.ametekmetals.com

Precision-engineered, small diameter tubes manufactured in a wide range of stainless steel, nickel, titanium and zirconium alloys. Seamless, welded and redrawn tubes used in critical applications for markets including nuclear, aerospace, medical, defense and oil and gas. Size range: 0.01 inch (0.25 mm) OD up to 1.25 inch (31.75 mm) OD. Wall thicknesses from less than 0.05 mm (0.002 in) up to 3.8 mm (0.150 in).

AMETEK SMP WALLINGFORD

21 Toelles Road
Wallingford, CT 06492 U.S.A.

www.reichert.com

Global leader in the design and manufacture of diagnostic instruments and devices for ophthalmologists, optometrists, eye care professionals, life science researchers, quality control and field technicians. Its products have come to define eye exams and vision testing, like the Phoropter refracting instruments, Tono-Pen handheld tonometers, the break through Ocular Response Analyzer featuring Corneal Hysteresis for advanced glaucoma risk analysis, Lensometers, and non-contact air puff tonometers. Its handheld and expanded benchtop line of refractometers like the AR9, Density5, and Polar3 are used in food, beverage, chemical, and pharmaceutical industries. High-end Surface Plasmon Resonance (SPR) instruments like the Reichert4SPR are used for drug discovery and protein therapeutics research.

SOLARTRON METROLOGY

Steyning Way, Bognor Regis,
West Sussex, PO22 9ST, UK

E-mail: taylor-hobson.germany@ametek.com

Taylor Hobson U.S. Office

Diehl Point at Cantera
27755 Diehl Road, Suite 300
Warrenville, IL 60555 U.S.A.
Phone: +1 630-621-3099 • Fax: +1 630-231-1739
E-mail: taylor-hobson.USA@ametek.com

www.taylor-hobson.com

Taylor Hobson products are grouped into three generic families based on the type of measurement. Surface, form and texture products consist of contact and non-contact instruments for the 2D and 3D measurement of surface finish, form and contour of components. Roundness instruments are used for measuring circular geometries, such as roundness, concentricity, runout, cylindricity, coaxiality and other parameters. Alignment instruments are electro-optical instruments for alignment, flatness, angle, squareness, parallelism, straightness and twist measurement. Markets include precision optics, automotive, aerospace, machining, thin-film measurement, medical, hard disk, MEMS and semiconductor industries.

TMC

15 Centennial Drive
Peabody, MA 01960 U.S.A.
Phone: +1 978 532-6330 or 800 542-9725 (U.S.A. only)
Fax: +1 978 531-8682
E-mail: tmc.sales@ametek.com

www.techmfg.com

Active and passive precision floor vibration isolation systems, optical tables, acoustic enclosures, and magnetic field cancellation systems that enable ultraprecision research, measurements, and manufacturing in the fields of photonics, semiconductor, life sciences, drug discovery and nanotechnology.

ZYGO

21 Laurel Brook Road
Middlefield, CT 06455-1291 U.S.A.
Phone: +1 860-347-8506 • Fax: +1 860-347-8372
E-mail: inquire@zygo.com

www.zygo.com

ZYGO (continued)

ZYGO is a supplier of optical metrology instruments, high-precision optical components and complex electro-optical systems. Its products employ various optical phase analysis techniques for measuring displacement, surface shape and texture, and film thickness. Electro-Optics and Optical Components businesses leverage ZYGO's expertise in optical design and assembly, and high-volume manufacturing of precision optical components and systems, for the medical/life sciences, defense and industrial markets.

AMETEK AT A GLANCE

AMETEK, Inc. is a leading global manufacturer of electronic instruments and electromechanical devices with annual sales of approximately \$5 billion.

AMETEK has 18,000 colleagues at more than 150 operating locations, and a global network of sales, service and support locations in 30 countries around the world.

The AMETEK Growth Model combines its four growth strategies of Operational Excellence, Strategic Acquisitions, Global & Market Expansion, and New Product Development, with a disciplined focus on cash generation and capital deployment. By executing the AMETEK Growth Model, the company seeks to generate shareholder value by doubling earnings per share over the course of each business cycle.

AMETEK consists of two operating groups, both with highly-differentiated technology and leading positions in niche markets:

Electronic Instruments - a worldwide leader in the design and manufacture of advanced analytical, test and measurement instrumentation for the energy, aerospace, power, research, medical and industrial markets.

Electromechanical - a differentiated supplier of automation and precision motion control solutions, and highly engineered electrical interconnects, specialty metals and thermal management systems.
